

Containers

Containers for all purposes – suitable for S.C.A.T. safety system

S.C.A.T. safety closures are available for a wide range of different container threads. On the following pages, you will find the suitable containers for every thread size. If you wish to use already available containers, we are providing you with an aid in determining thread size here.

Note: All specified values are for orientation and may vary from manufacturers' specifications by 0.5 mm (due to production tolerances).

Container accessories

Politainer, spouts

A 107 330

Space saving storage

The Politainer can ideally be stored space-saving prior to filling and it is stackable when filled. The Politainers unfolds automatically during filling – the integrated handle ensures a safe transport and emptying free of danger. Through the small volume in its original condition you save shipping costs. The carton can be used several times and that increases cost effectiveness. The combi-packaging uses 50%–75% less material than rigid container and is therefore environmentally friendly. When using the strong covering box the Politainer is UN approved.

UN approval
